

The British White Cattle Society of Australia Ltd

AGENDA

8 March 2025 General Meeting

Venue: Via Zoom Join Zoom Meeting:
<https://us02web.zoom.us/j/82153931652?pwd=WgrhwpPPN3x2zJAqKZBRLtykn15MaL.1>
Meeting ID: 821 5393 1652
Passcode: 921497

Commencing At: 9:00AM (AEDST)

1. President's Welcome

1.1. Attendance & Proxies

2. Minutes of the previous General Meeting (19 October 2024)

2.1. Approval of Minutes

2.2. Business Arising (not otherwise included on this Agenda)

2.2.1. Appointment of Auditor 2024/25

(Wayne Cross)

3. Correspondence

(Dierdre Mikkelson)

4. Treasurer's Report

5. General Business

5.1. Grow the Herd

5.1.1. Memberships Update

(Dierdre Mikkelson)

5.1.2. Website and Digital Marketing

(Dierdre Mikkelson)

5.1.3. Online Bull Sale

(Dierdre Mikkelson)

5.1.4. Cattle Transporter Guide

(Steph Schultz)

5.2. Provide Professional Member Services

5.2.1. Manager of Member Services Report

*(Lindsay Murray for
Lucy Olson)*

5.2.2. ABRI Breed Logic

(Lindsay Murray)

5.2.3. Breed Standard Review

(Lindsay Murray)

5.2.4. Proposed ABRI Herdbook Naming Convention Change

(Motion -see attachment)

(Lilli Grgat)

5.3. Develop Strategic Alliances

(Lindsay Murray)

5.4. Enhance Governance

6. Other Business

7. Next Meeting

The British White Cattle Society of Australia Ltd

AGENDA

8 March 2025 General Meeting

Item 5.2.3 ABRI Herdbook Naming Convention Change (Lilli Grgat)

New member Lilli Grgat believes that the Registration Certificates and ABRI short form search results should not include the animal's chromosome status and proposes that the naming convention be altered to align with certain other breed associations such as the Murray Grey association.

Lilli proposes that the naming convention should include the animal's name (including stud prefix), herd book number, grade and other relevant suffixes such as AI, ET, IMP only. The chromosome status would just be listed on the registration certificate along with all the existing information. The images below show the ABRI animal search results of the British White herd book compared with the Murray Grey herd book.

Motion: that the animal's name on ABRI should include the herd book status (ie AP, B etc) and other relevant suffices pertinent to the core function of the herd book (ie AI, ET, IMP etc) but not the chromosome status.

To aid members consideration of this issue the following observations are made by Society office bearers:

- From the Society's perspective this would necessitate requesting ABRI to change the way the listings appear in the ABRI search function as the only place the chromosome status appears is in the animal's (and sire/dams etc) name. The cost to request this change is unknown at this stage.
- The current approach provides an easy way to identify the chromosome status of not just the animal but the dam, grandam, sire and grand sire's status without having to open the listing for each individual in the animal's pedigree
- ABRI is currently focused on developing and rolling out their new herd book management software Breed Logic and has placed a freeze on any coding changes to the current system. It may be possible to request the suggested change as part of the customisation of the Breed Logic rollout for the Society but the cost of this is unknown at this stage.
